Searching for Lobbyist Information by Lobbyist and by Organization

As a member of the public, the **Lobbyists Registry Application** allows you to search lobbying activities in a number of ways, including by lobbyist, by date range, by organization, by subject matter and by public office holder. Two of the most frequent public searches, by lobbyist and by organization, are described below.

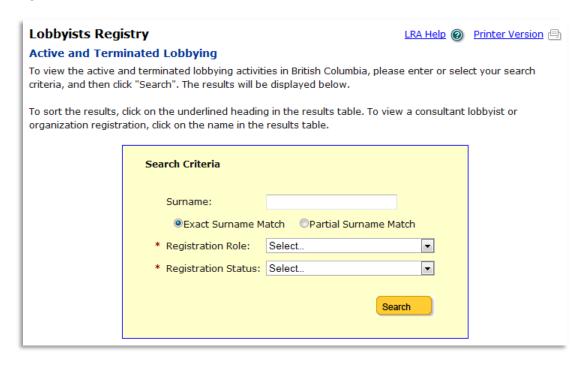

The View Lobbyists Registry Information screen is displayed and contains a list of five links.

2. Click the Active and Terminated Lobbying link.

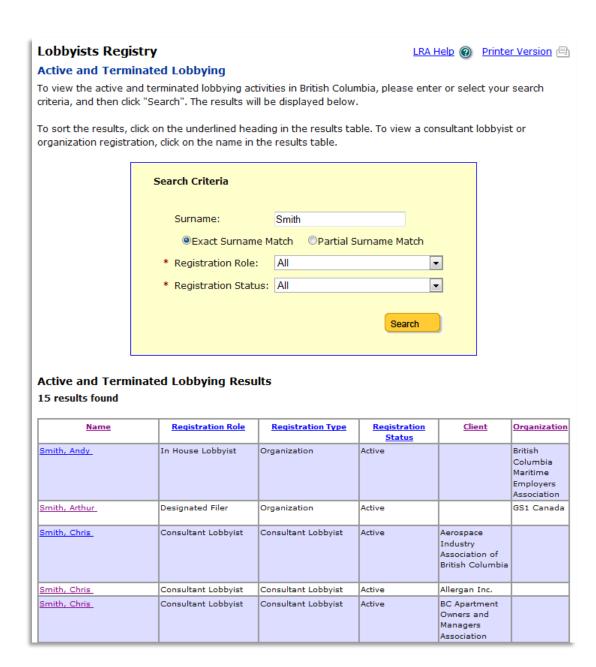

The **Active and Terminated Lobbying** screen is displayed. You may now search for a specific lobbyist or organization.
